

Not every budget allows for the most innovative and realistic training simulators available to Law Enforcement today like the V-180™ or V-300™. VirTra strongly believes that your investment into a force options simulator should be preserved and allow for future growth.

UPGRADE OFFER

Upgrade your VirTra single screen to VirTra's V-180/300 multi-screen training simulators.*

VIRTRA V-300™

"The V-300™ shows how quickly judgment decisions have to be made, and if they are not made immediately and quickly, lives can be lost. You can't put a dollar value on that or being prepared enough for the surprises that could be around every corner."

Jason Grunwald
Commander of USMS Great Lakes Regional Fugitive Task Force

That's why VirTra offers a simple and easily understood upgrade path. We will credit 100% of your VirTra single screen purchase and apply it towards the cost of a multi-screen simulator at a later date. Simply return the V-100™ system to us and we'll subtract the original purchase price from a more advanced and immersive multi-screen simulator. It's as simple as that. With VirTra, your investment in simulation training goes further.

VIRTRA V-180™

"I would highly recommend this system to other chiefs in other areas and make it part of their training course."

Ellis C Jackson Chief of Police, Thomasville Georgia

* The system must remain under the VirTra Standard Warranty to be eligible.
